Proper Citation: Open Provenance Model (RRID:SCR_001829)

Description: A model of provenance that is designed to meet the following requirements: (1) To allow provenance information to be exchanged between systems, by means of a compatibility layer based on a shared provenance model. (2) To allow developers to build and share tools that operate on such a provenance model. (3) To define provenance in a precise, technology-agnostic manner. (4) To support a digital representation of provenance for any "thing", whether produced by computer systems or not. (5) To allow multiple levels of description to coexist. (6) To define a core set of rules that identify the valid inferences that can be made on provenance representation.

Abbreviations: OPM

Synonyms: The OPM Provenance Model (OPM), OPM Provenance Model, The OPM Provenance Model

Resource Type: data or information resource, narrative resource, standard specification

Keywords: provenance, model

Availability: Free

Resource Name: Open Provenance Model

Resource ID: SCR_001829

Alternate IDs: nif-0000-10392

Old URLs: <http://openprovenance.org/>

Record Creation Time: 20220129T080209+0000

Record Last Update: 20260905T132440+0000
