Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented on June 21, 2011. Database focusing on gene expression in the frog *Xenopus laevis*, it is the web companion to the research papers describing a large-scale in situ hybridization screening in *Xenopus* embryos. The goals of this large-scale in situ screen project are to identify genes by the characterization of their expression pattern, to partially sequence the corresponding cDNAs and to maintain a database collecting the results.
