Proper Citation: National Ataxia Foundation (RRID:SCR_002933)

Description: Membership supported, nonprofit organization established dedicated to improving the lives of persons affected by ataxia through support, education, and research. The Foundation's primary purpose is to support promising ataxia research and to provide vital programs and services for ataxia families. The Foundation first began direct funding of ataxia research through the NAF Research Seed-Money Program. Since that time, the Foundation has established additional research programs which have included programs such as the NAF Young Investigator Award, the NAF Fellowship Award and other research initiatives. NAF research programs continue to fund promising ataxia research studies throughout the world. The Foundation supports research in dominant ataxia (including SCAs), recessive ataxia (including Friedreich's) and sporadic ataxia. The Foundation has developed an extensive library of NAF brochures, fact sheets, books, and videos on ataxia. Also available to its members is the Foundation's quarterly news publication, Generations. This 48 page ataxia news magazine provides the latest information on ataxia research, articles on living with ataxia, personal accounts from ataxia families throughout the United States, and much more.

Abbreviations: NAF

Resource Type: institution

Keywords: ataxia, grant, medical, research, support, education, family, award, fellowship, meeting

Related Condition: Ataxia

Resource Name: National Ataxia Foundation

Resource ID: SCR_002933
