Type: Tool

Proper Citation

ISFinder (RRID:SCR_003020)

Resource Information

URL: <http://www-is.biotoul.fr>

Proper Citation: ISFinder (RRID:SCR_003020)

Description: Database of a list of insertion sequences isolated from eubacteria and archaea. It is organized into individual files containing their general features (name, size, origin, family.....) as well as their DNA and potential protein sequences. Although most of the entries have been identified as individual elements, a growing number are included from their description in sequenced bacterial genomes. The search engine permits the retrieval and display of individual and groups of ISs based on a combination of their general features. Two levels of search are available. The simple search option enables the user to sort elements using a limited number of basic items whereas the extensive search offers an additional set of possibilities such as comparisons of the sequences of terminal inverted repeats and a variety of different layout displays. Built in links are provided to: the EMBL sequence database, the NCBI taxonomy database and to the ESF plasmid database. At present, only individual sequences can be downloaded one by one for comparison. An on-line BLAST facility is available and in future versions direct access to additional analytical tools will be provided on line. Direct submission of ISs is encouraged using the on-line form provided.

Abbreviations: ISFinder

Synonyms: IS Finder, Isfinder

Resource Type: analysis service resource, data analysis service, data or information resource, data repository, database, production service resource, service resource, storage service resource

Defining Citation: [PMID:22367867](#), [PMID:19906702](#)

Keywords: insertion sequence, insertion, sequence, blast, dna, protein sequence, bio.tools, FASEB list

Funding: CNRS

Resource Name: ISFinder

Resource ID: SCR_003020

Alternate IDs: biotools:isfinder, nif-0000-03050

Alternate URLs: <https://bio.tools/isfinder>

Record Creation Time: 20220129T080216+0000

Record Last Update: 20260905T132456+0000

Ratings and Alerts

No rating or validation information has been found for ISFinder.
