deCODE genetics

RRID:SCR_003334

Type: Tool

Proper Citation

deCODE genetics (RRID:SCR_003334)

Resource Information

URL: <http://www.decode.com/>

Proper Citation: deCODE genetics (RRID:SCR_003334)

Description: A biopharmaceutical company applying its discoveries in human genetics to develop drugs and diagnostics for common diseases. They specialize in gene discovery - their population approach and resources have enabled them to isolate key genes contributing to major public health challenges from cardiovascular disease to cancer. The company's genotyping capacity is now one of the highest in the world. They have a large population-based biobank containing whole blood and DNA samples with extensive relevant phenotypic information from around 120.000 Icelanders. In the company's work in more than 50 disease projects, their statistical and informatics departments have established themselves in data processing and analysis. deCODE genetics is widely recognized as a center of excellence in genetic research.

Abbreviations: deCODE

Synonyms: Islensk Erfdagreining EHF, Islensk Erfdagreining

Resource Type: commercial organization

Keywords: biopharmaceutical, genetics, drug, diagnostic, genotyping, phenotype, data processing, analysis, genetic variant, risk factor, genome, blood, dna, biobank, single nucleotide polymorphism

Related Condition: Schizophrenia, Cardiovascular disease, Cancer, Type 2 diabetes, Atrial fibrillation, Heart attack

Availability: Free, Freely available

Resource Name: deCODE genetics

Resource ID: SCR_003334

Alternate IDs: nif-0000-31959, ISNI: 0000 0004 0618 6889, grid.421812.c, Wikidata: Q493712

Alternate URLs: <https://ror.org/04dzdm737>

Record Creation Time: 20220129T080218+0000

Record Last Update: 20260905T132501+0000

Ratings and Alerts

No rating or validation information has been found for deCODE genetics.

No alerts have been found for deCODE genetics.
