**Proper Citation:** NIH Data Sharing Repositories (RRID:SCR\_003551)

**Description:** A listing of NIH supported data sharing repositories that make data accessible for reuse. Most accept submissions of appropriate data from NIH-funded investigators (and others), but some restrict data submission to only those researchers involved in a specific research network. Also included are resources that aggregate information about biomedical data and information sharing systems. The table can be sorted according by name and by NIH Institute or Center and may be searched using keywords so that you can find repositories more relevant to your data. Links are provided to information about submitting data to and accessing data from the listed repositories. Additional information about the repositories and points-of-contact for further information or inquiries can be found on the websites of the individual repositories.

**Abbreviations:** NIH Data Sharing Repositories

**Resource Type:** data or information resource, data set

**Keywords:** data repository

**Funding:** NIH
