Proper Citation: Stein Institute for Research on Aging (RRID:SCR_003759)

Description: Portal dedicated to the development and application of the latest advances in biomedical and behavioral science knowledge to issues of successful, healthy aging and the prevention and reduction of the burden of disability and disease in late life. Additionally, they provide numerous grants to junior faculty, as well as education programs for doctors and researchers through monthly Grand Rounds. From studying memory to identifying genes with important roles in aging, Stein Institute scientists are continuously pushing the boundaries of knowledge. One of their most promising ongoing projects is the Successful AGing Evaluation (SAGE) Study. SAGE is the only large-scale study on successful aging that considers the impact of positive psychological traits, such as resilience and wisdom, in addition to biological factors, providing a much more complete picture of older adults. Their monthly public lectures presented by renowned physicians and scientists are broadcast on UCSD-TV and have been viewed more than one billion times. This year they partnered with the Clinical and Translational Research Institute and the Osher Lifelong Learning Institute to organize Making Sense of Science, a course for older adults interested in science and health. In addition, They distribute a free monthly newsletter and work extensively with the community, participating in numerous events and conferences.

Abbreviations: Stein Institute

Synonyms: UCSD Stein Institute for Research on Aging, Sam and Rose Stein Institute for Research on Aging, Center for Healthy Aging Stein Institute for Research on Aging

Resource Type: data or information resource, portal, topical portal, training resource

Keywords: neuroscience, lecture, article, funding resource, late adult human

Related Condition: Aging, Healthy aging

Availability: Public

Resource Name: Stein Institute for Research on Aging

Resource ID: SCR_003759

Alternate IDs: nlx_157988

Record Creation Time: 20220129T080220+0000

Record Last Update: 20260912T195602+0000
