Proper Citation: Cureline Biopathology (RRID:SCR_004468)

Description: Cureline BioPathology is a research histology laboratory providing high-quality human and animal tissue processing, preparation and analysis. In collaboration with Cureline, Cureline BioPathology offers a complete portfolio of services in human tissue research, including human tissue acquisition, biospecimen storage, tissue processing and comprehensive tissue analysis using special stains and immunohistochemical methods. The laboratory was founded in San Francisco Bay area by Cureline, Inc., to leverage already established relationships with clinical sites and biotechnology companies. Cureline has extensive experience in human tissue procurement, preservation and biospecimen management, and has been providing effective human tissue research services to pharmaceutical and biotechnology clients since 2003. Our experienced and motivated team is dedicated to providing support to academia and industry clients in all aspects of human and animal tissue processing, target profiling, antibody cross-reactivity studies, and toxicology.
