Proper Citation: JP McCarthy Cord Stem Cell Bank (RRID:SCR_004540)

Description: The J.P. McCarthy Cord Stem Cell Bank at the Karmanos Cancer Institute is a public, non-profit stem cell bank with over 1,200 umbilical cord blood units in its inventory. The bank was founded in 2001 and is one of only 21 internationally recognized cord stem cell banks affiliated with the National Marrow Donor Program. The only bank of its kind in Michigan, it was created in anticipation of providing life-saving hope to people who have been diagnosed with cancer and serious blood disorders. Karmanos collects, processes and stores donated umbilical cord blood that becomes a readily available source of hematopoietic stem cells for transplant in children and adults with leukemia, lymphoma, sickle cell disease or other life-threatening conditions. The J.P. McCarthy Cord Blood Bank and Carls Processing Laboratory is also accredited by the Foundation for the Accreditation of Cellular Therapy (FACT). The accreditation signifies the highest standards of practice in collection, processing and transplantation. Karmanos is the only FACT accredited cord blood bank in Michigan and one of only nine in the United States. In the Detroit Metropolitan area, the number of hospitals participating in the collection of cord blood is rapidly increasing. Please consider donating your baby's cord blood if you are delivering at one of our participating hospitals: Henry Ford Wyandotte Hospital in Wyandotte, MI, Providence Park Hospital in Novi, MI, St. Joseph Mercy Hospital in Ann Arbor

Abbreviations: J.P. McCarthy Cord Stem Cell Bank

Synonyms: J.P. McCarthy Cord Stem Cell Bank

Resource Type: biomaterial supply resource, cell repository, material resource

Keywords: stem cell

Related Condition: Cancer, Blood disorder, Leukemia, Lymphoma, Sickle cell disease, Life-threatening condition

Funding: J.P. McCarthy Fund ;
Carls Foundation
