OBO-Edit

RRID:SCR_005668

Type: Tool

Proper Citation

OBO-Edit (RRID:SCR_005668)

Resource Information

URL: <http://oboedit.org/>

Proper Citation: OBO-Edit (RRID:SCR_005668)

Description: OBO-Edit is an open source, platform-independent application written in Java for viewing and editing any OBO format ontologies. OBO-Edit is a graph-based tool; its emphasis on the overall graph structure of an ontology provides a friendly interface for biologists, and makes OBO-Edit excellent for the rapid generation of large ontologies focusing on relationships between relatively simple classes. The UI components are cleanly separated from the data model and data adapters, so these can be reused in other applications. The oboedit forward-chaining reasoner can also be used independently (for example, for traversing ontology graphs). OBO-Edit uses the OBO format flat file. See the GO wiki, http://wiki.geneontology.org/index.php/OBO-Edit:_Getting_the_Source_Code, for instructions on downloading the source code. Platform: Windows compatible, Mac OS X compatible, Linux compatible, Unix compatible

Abbreviations: OBO-Edit

Synonyms: OBO-Edit: The OBO Ontology Editor

Resource Type: software application, software resource, source code

Defining Citation: [PMID:17545183](#)

Keywords: ontology, browser, search engine, visualization, editor, software library, ontology or annotation browser, ontology or annotation search engine, ontology or annotation visualization, ontology or annotation editor

Availability: Open unspecified license - Free for academic use

Resource Name: OBO-Edit

Resource ID: SCR_005668

Alternate IDs: nlx_149107

Old URLs: <http://org.geneontology.oboedit>

Record Creation Time: 20220129T080231+0000

Record Last Update: 20260905T133131+0000

Ratings and Alerts

No rating or validation information has been found for OBO-Edit.

No alerts have been found for OBO-Edit.
