Proper Citation: North Texas Traumatic Brain Injury Model System (RRID:SCR_005879)

Description: The 16 affiliated Model System centers throughout the United States are responsible for gathering and submitting the core data set to the national database as well as conducting research studies on traumatic brain injury (TBI) both in collaboration with the other centers and within our own site. Through our research we hope to learn more about TBI and about the issues and concerns of people with TBI. Our goals are to improve the outcome and quality of life for people who have had brain injuries and for those who are caring for the person with a TBI. The North Texas Traumatic Brain Injury Model System (NT-TBIMS) pools the efforts and talents of individuals from the Departments of Neurosurgery, Neurology, Physical Medicine and Rehabilitation, Psychiatry (Neuropsychiatry), and Neuroradiology of the two leading medical institutions in the North Texas region. To be a patient involved in the research being conducted by the North Texas Traumatic Brain Injury Model System you must have suffered a TBI, be at least 16 years of age, have received initial treatment for the TBI at either Parkland Health and Hospital System or Baylor University Medical Center and then have received rehabilitative care at either Parkland, University Hospital Zale-Lipshy, or Baylor Institute for Rehabilitation. The patient must also be able to understand and sign an informed consent to participate or, if unable, have a family member or a legal guardian who understands the form sign the informed consent for the patient.

Abbreviations: NT-TBIMS

Synonyms: North Texas TBI Model System, North Texas Traumatic Brain Injury Model System (NT-TBIMS)

Resource Type: data or information resource, portal, topical portal

Keywords: brain injury, brain, injury, traumatic brain injury, clinical, research

Related Condition: Traumatic Brain Injury

Funding: National Institute on Disability and Rehabilitation Research H133A070027

Resource Name: North Texas Traumatic Brain Injury Model System

Resource ID: SCR_005879

Alternate IDs: nlx_149440

Record Creation Time: 20220129T080233+0000

Record Last Update: 20260905T132543+0000
