Rat Genome Database (RGD)

RRID:SCR_006444

Type: Tool

Proper Citation

Rat Genome Database (RGD) (RRID:SCR_006444)

Resource Information

URL: <http://rgd.mcw.edu>

Proper Citation: Rat Genome Database (RGD) (RRID:SCR_006444)

Description: Database for genetic, genomic, phenotype, and disease data generated from rat research. Centralized database that collects, manages, and distributes data generated from rat genetic and genomic research and makes these data available to scientific community. Curation of mapped positions for quantitative trait loci, known mutations and other phenotypic data is provided. Facilitates investigators research efforts by providing tools to search, mine, and analyze this data. Strain reports include description of strain origin, disease, phenotype, genetics, immunology, behavior with links to related genes, QTLs, sub-strains, and strain sources.

Abbreviations: RGD

Synonyms: , Rat Genome Database, RGD

Resource Type: data or information resource, data repository, database, service resource, storage service resource

Defining Citation: [PMID:23434633](#), [PMID:18996890](#), [PMID:17151068](#)

Keywords: RIN, Resource Information Network, mouse, rat, human, gene, qtl, marker, map, strain, sequence, est, genome, ontology, pathway, comparative genomics, physiology, phenotype, disease, model organism, proteomics, function, genetic, genomic, variation, immunology, behavior, knockout, inbred rat strain, mutant, congenic rat, recombinant inbred rat, data analysis service, organism supplier, genotype, gold standard, FASEB list, RRID Community Authority

Funding: NHLBI

Availability: Free, Freely available

Resource Name: Rat Genome Database (RGD)

Resource ID: SCR_006444

Alternate IDs: nif-0000-00134, r3d100010417, OMICS_01660

Alternate URLs: <https://doi.org/10.17616/R3WK60>
