Description: Scientific society whose members conduct basic and clinical pharmacological research in academia, industry and the government developing disease-fighting medicines and therapeutic agents. ASPET publishes five journals: Drug Metabolism and Disposition, Journal of Pharmacology and Experimental Therapeutics, Molecular Pharmacology, Pharmacological Reviews, and Molecular Interventions. ASPET's membership newsletter is The Pharmacologist. ASPET's annual meeting is part of Experimental Biology. There are numerous career opportunities in the field of pharmacology available to graduates of advanced training programs. The Society's web site lists university departments of pharmacology that have established Web sites describing their graduate study programs but it is unlikely that their listing will be complete. ASPET supports nine Divisions, each of which is governed by an Executive Committee. * Division for Behavioral Pharmacology * Division for Cardiovascular Pharmacology * Division for Drug Discovery and Development * Division for Drug Metabolism * Division for Integrative Systems, Translational and Clinical Pharmacology * Division for Molecular Pharmacology * Division for Neuropharmacology * Division for Pharmacology Education * Division for Toxicology
