Proper Citation: Cooperative Study Group for Autoimmune Disease Prevention (RRID:SCR_006803)

Description: Collaborative network of investigators with a focus on prevention of autoimmune disease, defined as halting the development of autoimmune disease prior to clinical onset by means other than global immunosuppression, and an emphasis on Type 1 diabetes. Its mission is to engage in scientific discovery that significantly advances knowledge for the prevention and regulation of autoimmune disease. The specific goals enunciated in pursuit of this mission are: * To create improved models of disease pathogenesis and therapy to better understand immune mechanisms that will provide opportunities for prevention strategies * To use these models as validation platforms with which to test new tools applicable to human studies * To encourage core expertise and collaborative projects designed for rapid translation from animal to human studies, emphasizing the development of surrogate markers for disease progression and/or regulation which can be utilized in the context of clinical trials

Abbreviations: CSGADP

Resource Type: knowledge environment, resource

Keywords: prevention, clinical, immune, model, disease pathogenesis, therapy

Related Condition: Type 1 diabetes, Diabetes, Autoimmune disease

Funding: NIAID ;
NIDDK ;
NICHD ;
NIH Office of Research on Womens Health ;
Juvenile Diabetes Research Foundation International

Resource Name: Cooperative Study Group for Autoimmune Disease Prevention

Resource ID: SCR_006803

Alternate IDs: nlx_152797

Record Creation Time: 20220129T080238+0000

Record Last Update: 20260729T044143+0000

Ratings and Alerts

No rating or validation information has been found for Cooperative Study Group for Autoimmune Disease Prevention .
