Proper Citation: Brown University Department of Neuroscience (RRID:SCR_007223)

Description: Mission of Department of Neuroscience is to do teaching and research on basic functions and diseases of nervous system. Areas of interest include neural plasticity, information processing, and neuronal and synaptic functions, particularly as they relate to development, sensory perception, motor behavior, and cognition. Members of Department also participate in MRI Research Facility, Center for Vision Research, and several NIH and NIMH training grants for graduate and postdoctoral fellows studying neuroscience and vision sciences. Department is also major contributor to Brown's Institute for Brain Science, multidisciplinary consortium that promotes collaborative theoretical and experimental studies of brain.

Synonyms: Brown Neuroscience; Neuroscience at Brown
