Proper Citation: Purdue University School of Pharmacy and Pharmaceutical Sciences Department of Medicinal Chemistry and Molecular Pharmacology (RRID:SCR_007468)

Description: The Department of Medicinal Chemistry and Molecular Pharmacology is one of the three departments comprising the School of Pharmacy and Pharmaceutical Sciences. There are currently over 80 graduate students enrolled in the Department, the vast majority of whom are engaged in studies leading to the Ph.D. degree. The presence of approximately 30 postdoctoral associates and other research staff professionals further enriches the intellectual atmosphere. Graduate students in the Department have the opportunity to interact with researchers in a wide variety of fields, including many who are associated with other departments at Purdue. Various research groups actively collaborate with groups from departments such as biochemistry, biological sciences, chemical engineering, chemistry, foods and nutrition, horticulture, and physics. In addition, approximately half of our faculty belong to the Purdue Cancer Center, the Neuroscience Program, the Graduate Program in Virology and/or the Purdue University Biochemistry and Molecular Biology Program (BMB), leading to extensive, formalized interactions campus-wide. Graduate students attend research seminars across campus, -affording the opportunity to observe firsthand many of the world's foremost researchers.
