Proper Citation: New England Primate Research School (RRID:SCR_008290)

Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on May 12,2023. A center that focuses on performing bio-medical research on nonhuman primates to aid in human health research. The center also focuses on training young scientists for professional careers in bio-medical research and primate biology. One of the New England Primate Research School's main accomplishments was the creation of an animal model for AIDS that first demonstrated that vaccine protection could be possible. Recent research has led to the development of novel agents for brain imaging that will aid in the diagnosis and treatment of Parkinson's disease.
