Proper Citation: Dartmouth Electron Microscope Facility (RRID:SCR_009762)

Description: Core facility that provides the following services: Electron microscopy facility access.

The EM Facility is an institutional resource to meet the electron microscopy needs of faculty, staff and students of the Dartmouth College community, including the College, Thayer School of Engineering, the Dartmouth Medical School, and the Dartmouth-Hitchcock Medical Center. The instruments are housed in the EM wing of Remsen. Because the facility is intended to provide service to all the campus, yet has limited personnel, a major effort is made to provide training in the use of appropriate instruments to enable users to do their own microscopy. In addition to this training, there will be service assistance available for those unable to spend time on the microscopes, and for processing of biopsy samples from DHMC.

Resource Type: access service resource, core facility, service resource

Keywords: electron microscopy

Resource Name: Dartmouth Electron Microscope Facility
