**Description:** Core facility that provides the following services: Custom peptide synthesis service. The Biological Chemistry Resource Center (BCRC) at the Department of Chemistry has been established to provide an open access user facility for state-of-art biophysical analytical instrumentation. The goal of the center is not only to provide access to instrumentation, but also supply the graduate student and post-doc user community with a firm understanding of the scientific principles behind the techniques and on-site expertise to ensure successful experimentation. Instrumentation access will be available to the entire University of Pennsylvania research community.
