Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on August 17,2026. Core facility provides the following services: DNA sequencing service, DNA fragment sizing and genotyping service, Real-time PCR analysis, DNA microarray analysis service, Protein sequencing service. The Greenwood Molecular Biology Facility is a primary research infrastructure operated by the Biotechnology Program of the Pacific Biosciences Research Center. Core serves the biomedical and molecular biology research and educational programs of the University and its associated institutions.
