Description: Macquarie University Research Centre for Astronomy, Astrophysics, and Astrophotonics (MQAAAstro) grew out of our Concentration of Research Excellence (CORE) and is now one of the largest and fastest growing astronomy groups in Australia. We are a highly active centre of astronomical research excellence. We have close ties to the Australian Astronomical Observatory (AAO) and CSIRO Astronomy & Space Science (CASS), both of which are close to campus. These strong links offer valuable synergies and opportunities for collaborations in observational astronomy, theoretical astrophysics, astrophotonics, science education, and Aboriginal astronomy.
