Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on January 31, 2025. The award-winning Keck Biophysics Facility at Northwestern University has a comprehensive set of state of the art instruments for biophysical and biochemical characterization of macromolecules and their interactions. We provide staff-service, technical expertise and assistance to investigators and companies in the continental US and Canada. The Facility has 15 years of experience with a broad array of biophysical techniques and has generated over 500 publications in top-tier journals.
