CNP Vector Facility

RRID:SCR_012288
Type: Tool

Proper Citation

CNP Vector Facility (RRID:SCR_012288)

Resource Information

URL: http://www.scienceexchange.com/facilities/vector-facility

Proper Citation: CNP Vector Facility (RRID:SCR_012288)

Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on April 15,2024. Main goal of the Vector facility is development and implementation of viral vectors and viral vector-based techniques, which allow manipulating neural circuits and characterizing neural populations in laboratory animals. We also see the Vector facility as a pole of shared resources and expertise. Many systems of recombinant viruses have been used in a wide number of applications, namely as gene delivery tools. Recombinant adeno-associated virus (rAAV) is very frequently a gene delivery vector of choice, especially in the field of gene therapy.

Abbreviations: CNP Vector Facility

Synonyms: Champalimaud Neuroscience Program Vector Facility

Resource Type: service resource

Keywords: adeno-associated virus

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: CNP Vector Facility

Resource ID: SCR_012288

Alternate IDs: SciEx_11468

Record Creation Time: 20220129T080309+0000

Record Last Update: 20260905T133352+0000

Ratings and Alerts

No rating or validation information has been found for CNP Vector Facility.

No alerts have been found for CNP Vector Facility.
