Description: The Multiple Sclerosis Outcome Assessments Consortium (MSOAC) is a public-private partnership which aims to accelerate the development of new therapies for MS by generating new tools for measuring outcomes in clinical trials. It is collecting, standardizing, and analyzing data about MS with the goal of qualifying new measures of disability for the disease. MSOAC is the newest of the eight consortia of Critical Path Institute (C-Path), a nonprofit organization that is dedicated to accelerating drug development by delivering on the mission outlined by FDA's critical path initiative.
