Proper Citation: ReadCube (RRID:SCR_013777)

Description: A software resource application which organizes research literature. Users can import PDF articles into the application and create a searchable library. ReadCube enables users to perform keyword searches and provides references as well as note-taking tools. ReadCube also recommends articles to users based on library contents. For publishers, ReadCube enables interactive PDF versions of articles with tools for readers to make notes or perform author and keyword searches.
