Duke Human Heart Repository

RRID:SCR_013980
Type: Tool

Proper Citation

Duke Human Heart Repository (RRID:SCR_013980)

Resource Information

URL: http://sites.duke.edu/dhhr/

Proper Citation: Duke Human Heart Repository (RRID:SCR_013980)

Description: A biomaterial supply resource which collects and disseminates human heart tissue. Samples include both failing and non-failing hearts, RNA/DNA analysis, tissue staining and immunofluorescence samples.The tissue that has been flash frozen and stored at -80?C is acquired from distinct regions of the heart such as the LV free wall, septum, and valve leaflets. Individual sample sizes are typically 100-300mg for flash frozen tissues. The DHHR also serves as a resource for assay development, target identification, and sponsored research, capable of isolating cardiomyocytes from hearts and using them for in-vitro assays such as calcium handling, enzyme activity, signalling pathways and other biochemical research activities

Resource Type: biomaterial supply resource, material resource

Keywords: biomaterial supply resource, human heart, human heart tissue, cardiovascular, tissue, tissue sample

Availability: Free, Available to the research community

Resource Name: Duke Human Heart Repository

Resource ID: SCR_013980

Record Creation Time: 20220129T080318+0000

Record Last Update: 20260912T200250+0000

Ratings and Alerts

No rating or validation information has been found for Duke Human Heart Repository.

No alerts have been found for Duke Human Heart Repository.
