Anima

RRID:SCR_017017

Type: Tool

Proper Citation

Anima (RRID:SCR_017017)

Resource Information

URL: <https://anima.irisa.fr>

Proper Citation: Anima (RRID:SCR_017017)

Description: Portal provides software library and python scripts for medical image processing. Open source set of software tools for medical image processing, medical image analysis, image registration, statistical analysis, quantitative MRI processing, image denoising and filtering, and segmentation developed by VISAGES/Empenn research team. Available as Github repository and compiled binaries for various OS including OSX, Fedora, Ubuntu, Windows.

Resource Type: 3d spatial image, data analysis software, data or information resource, data processing software, diffusion-weighted mri 3d image, image, image analysis software, image processing software, mri 3d image, portal, registration software, software application, software resource, software toolkit

Keywords: medical, image, processing, analysis, registration, statistical, quantitative, MRI, data, VISAGES

Availability: Free, Freely available, Available for download

Resource Name: Anima

Resource ID: SCR_017017

Alternate URLs: http://olivier.commowick.org/software_anima.php

License: Affero GPL license

Record Creation Time: 20220129T080333+0000

Record Last Update: 20260905T132817+0000

Ratings and Alerts

No rating or validation information has been found for Anima.

No alerts have been found for Anima.

Data and Source Information

Usage and Citation Metrics

We found 20 mentions in open access literature.

Listed below are recent publications. The full list is available at [PRECISE-TBI](#) .

Gaubert M, et al. (2026) Motor tract lesion mapping from the brain to the lower spinal cord in people with relapsing-remitting multiple sclerosis: exploring the association between lesion severity and functional consequences by limb. *Brain communications*, 8(3), fcag140.

Roberts H, et al. (2024) State rumination predicts inhibitory control failures and dysregulation of default, salience, and cognitive control networks in youth at risk of depressive relapse: Findings from the RuMeChange trial. *Journal of affective disorders reports*, 16.

Wiltgen T, et al. (2024) LST-AI: A deep learning ensemble for accurate MS lesion segmentation. *NeuroImage. Clinical*, 42, 103611.

Shahid SS, et al. (2024) Estimating the synaptic density deficit in Alzheimer's disease using multi-contrast CEST imaging. *PloS one*, 19(3), e0299961.

Shahid SS, et al. (2023) Perturbed neurochemical and microstructural organization in a mouse model of prenatal opioid exposure: A multi-modal magnetic resonance study. *PloS one*, 18(7), e0282756.

Wiltgen T, et al. (2023) LST-AI: a Deep Learning Ensemble for Accurate MS Lesion Segmentation. *medRxiv : the preprint server for health sciences*.

Snoussi H, et al. (2023) Effectiveness of regional diffusion MRI measures in distinguishing multiple sclerosis abnormalities within the cervical spinal cord. *Brain and behavior*, 13(11), e3159.

Legouhy A, et al. (2023) Volumetric and microstructural abnormalities of the amygdala in focal epilepsy with varied levels of SUDEP risk. *medRxiv : the preprint server for health sciences*.

Beaumont J, et al. (2023) Multi T1-weighted contrast imaging and T1 mapping with compressed sensing FLAWS at 3 T. *Magma (New York, N.Y.)*.

Hitziger S, et al. (2022) Triplanar U-Net with lesion-wise voting for the segmentation of new lesions on longitudinal MRI studies. *Frontiers in neuroscience*, 16, 964250.
