Proper Citation: Heidelberg Eye Explorer (RRID:SCR_022045)

Description: Platform that centralizes management of ophthalmic images. HEYEX interfaces with electronic medical record systems and third-party devices to allow exchange, storage, and dynamic review of diagnostic images. Heidelberg Engineering imaging products use Heidelberg Eye Explorer software platform and database to store patient information and images.

Synonyms: HEYEX 2, HEYEX

Resource Type: data management software, software application, software resource

Keywords: ophthalmic images management, Heidelberg Engineering imaging products, software to store patient information, software to store images

Availability: Free, Available for download, Freely available

Resource Name: Heidelberg Eye Explorer

Resource ID: SCR_022045
