Proper Citation: Pediatric Cancer Data Commons (RRID:SCR_022369)

Description: PCDC brings together clinical, genomic, and imaging data from institutions around the world to transform pediatric cancer research and outcomes. Headquartered at University of Chicago, PCDC works with international leaders in pediatric cancers and National Cancer Institute to develop and apply uniform data standards that facilitate collection, combination, and analysis of data from many different sources. PCDC Consortium develops common core data dictionary and common governance structure spanning pediatric cancers neuroblastoma, soft tissue sarcoma, acute myeloid leukemia, acute lymphoblastic leukemia, germ cell tumors, bone tumors, and Hodgkin lymphoma to enable innovative cross disease research as well as set standard for future cancer data commons endeavors.
