Proper Citation: Oregon Health and Science University Biostatistics and Design Program Core Facility (RRID:SCR_022741)

Description: Core provides designing studies and developing statistical analysis plans in clinical trials, clinical and community based intervention studies, laboratory experiments, and observational studies. Provides expertise in traditional and modern statistical methods. Can help with trial design and analysis, epidemiologic analysis, sample size and power, high dimensional data analysis, risk prediction, complex survey analysis, time-to-event and longitudinal models, and statistical simulation, data management and wrangling, analytic variable coding and data set creation, research database design, data visualization, manuscript preparation, statistical programming, and much more.

Abbreviations: BDP

Synonyms: OHSU Biostatistics and Design Program

Resource Type: access service resource, core facility, service resource

Keywords: USEDit, ABRF, trial design and analysis, epidemiologic analysis, high dimensional data analysis, risk prediction, complex survey analysis, time-to-event and longitudinal models, and statistical simulation, data management and wrangling, analytic variable coding and data set creation, research database design, data visualization, manuscript preparation, statistical programming
