Proper Citation: Collection of Cell Lines in Veterinary Medicine (RRID:SCR_023182)

Description: Generates, characterises and collects cell lines which are of interest for veterinary research and diagnostics. Collection includes cell lines of farm animals such as cattle, pig, horse, sheep, goat and poultry and other mammals, birds, reptiles, fishes and insects (70 species). Authentication and quality-control tests (tests for contamination with mycoplasmas, bacteria, BVDV) of the cultures are done routinely. Cell cultures are provided to scientists of the Friedrich-Loeffler-Institute and other non-commercial institutions worldwide after consultation of a scientific staff member of the CCLV.

Abbreviations: CCLV

Resource Type: biomaterial supply resource, material resource, tissue bank

Resource Name: Collection of Cell Lines in Veterinary Medicine

Resource ID: SCR_023182
