Proper Citation: University of Miami Miller School of Medicine Biomarkers and Immunoassay Laboratory Core Facility (RRID:SCR_023705)

Description: Provides biomarker testing for human clinical research studies across multiple disciplines. Provides expertise with chemistry, special chemistry, radioimmunoassay, nephelometric and ELISA and multiplexing assay methods utilizing automated and manual procedures. Laboratory has Clinical Laboratory Improvement Act certification and follows guidelines established by CLIA for quality control and proficiency testing to ensure results. Core coordinates proper pre-analytical sample collection and processing procedures with project leaders; performs biochemical assays on samples submitted to the laboratory by investigators in manner that assures strict quality control both within and between assay runs; reports results to project staff in timely fashion; makes available expertise and technical assistance for establishing and validating new methodologies to support University of Miami investigators.
