RRID:SCR_024246

Type: Tool

Proper Citation

metagenomeseq (RRID:SCR_024246)

Resource Information

URL: <https://bioconductor.org/packages/metagenomeSeq/>

Proper Citation: metagenomeseq (RRID:SCR_024246)

Description: Software R package to determine features that are differentially abundant between two or more groups of multiple samples. Used to address the effects of both normalization and under-sampling of microbial communities on disease association detection and testing of feature correlations.

Resource Type: software resource, software toolkit

Keywords: determine features that are differentially abundant, two or more groups of multiple samples, disease association detection, testing of feature correlations,

Resource Name: metagenomeseq

Resource ID: SCR_024246

Alternate IDs: OMICS_07813

Alternate URLs: <https://sources.debian.org/src/r-bioc-metagenomeseq/>

Record Creation Time: 20230830T050217+0000

Record Last Update: 20260905T133106+0000

Ratings and Alerts

No rating or validation information has been found for metagenomeseq.

No alerts have been found for metagenomeseq.

Data and Source Information

Usage and Citation Metrics

We found 243 mentions in open access literature.

Listed below are recent publications. The full list is available at [PRECISE-TBI](#) .
