Proper Citation: ISOLDE (RRID:SCR_025577)

Description: Software environment to ease task of building macromolecular models into low to medium resolution experimental maps. Physically realistic environment for model building into low-resolution electron-density maps. Can generate maps directly from crystallographic F/sigF data in MTZ format and automatically re-calculate them when model changes, and/or generate "static" maps from pre-calculated F/phi data.

Resource Type: software application, software resource

Defining Citation: [PMID:29872003](#)

Keywords: software environment, model building, building macromolecular models, low resolution electron density maps, experimental maps,

Funding: Wellcome Trust

Availability: Free, Freely available

Resource Name: ISOLDE
