Proper Citation: University of Luxembourg LCSB Bioimaging Platform Core Facility (RRID:SCR_026352)

Description: Bioimaging Platform provides access to and support for wide variety of advanced microscopy and flow cytometry instruments, enabling researchers to perform studies from the tissue level and down to sub-cellular scales. Provides access to analytical imaging technologies. As such, the platform comprises of advanced microscopy systems for high resolution studies of fixed and live samples as well as for low-phototoxicity imaging of whole organs and organisms. Bioimaging platform includes seven advanced microscopy systems, two flow cytometers and several high-performance analysis workstations.
