Proper Citation: University of Nebraska Medical Center - Institutional Biospecimen Biobank Core Facility (RRID:SCR_027222)

Description: Serves as a centralized resource for the collection, storage, processing, and distribution of human biospecimens to advance biomedical and translational research. The facility supports investigators with a wide range of services including biospecimen processing, clinical trial support, short term tissue culture, frozen tissue preparation, and specialized sample handling and shipping.

Abbreviations: UNMC IBB

Synonyms: , Institutional Biospecimen Biobank, University of Nebraska Medical Center Institutional Biospecimen Biobank, UNMC Institutional Biospecimen Bank (IBB)

Resource Type: access service resource, biobank, core facility, material storage repository, service resource, storage service resource

Keywords: procure and coordinate distribution of fresh frozen human tissue, human tissue, biospecimen DNA or RNA extraction, sectioning of frozen tissues, short-term tissue culture, cytogenetic and molecular cytogenetic analysis, tissue preparation,

Resource Name: University of Nebraska Medical Center - Institutional Biospecimen Biobank Core Facility
