Proper Citation: Life Canvas Technologies: SmartSPIM (RRID:SCR_027239)

Description: High-speed, high-resolution light sheet microscope designed for imaging large, cleared tissue samples. Utilizes patented axially-swept light sheet technology to achieve uniform axial resolution across the entire sample, enabling rapid volumetric imaging. System is particularly well-suited for imaging cleared tissues, including whole organs and even entire juvenile mice, with options for both aqueous and organic clearing methods. Light sheet imaging for rapid volumetric acquisition of intact samples.

Resource Type: instrument resource

Keywords: Light sheet imaging, rapid volumetric acquisition of intact samples, light sheet microscope, imaging,
