Proper Citation: RRID:RGD_405878048

Description: Rattus norvegicus with name LH from RGD.

Species: Rattus norvegicus

Notes: In 1969 outbred Sprague-Dawley rats were selected for high systolic blood pressure using an indirect plethysmographic technique in pre-warmed unrestrained conscious rats. Three pairs were originally selected, and selection was continued with brother x sister mating. Strain LN was maintained as a normotensive control, and LL as a hypotensive strain. (see Vincent et al 1984, and Vincent and Sassard, 1994 for reviews). This LH is the parent to LH substrains maintained in other institutions.

Catalog Number: 405878048

Background: inbred

Database: Rat Genome Database (RGD)

Database Abbreviation: RGD

Availability: Unknown

Alternate IDs: 405878048

Organism Name: LH

Record Creation Time: 20240716T195801+0000

Record Last Update: 20260725T194312+0000
