Proper Citation: RRID:RGD_60997

Description: Rattus norvegicus with name DA from RGD.

Species: Rattus norvegicus

Notes: Developed from stock of unstated origin by Dr. T.T. Odell, Jr. at Oak Ridge National Laboratory, Tennessee to F11, then by Dr. Darcy Wilson at the Wistar Institute, who named it DA because it expressed the 'd' blood group allele of Joy Palm, and it is 'a' agouti in colour (Wilson 1965). Inbreeding was completed in about 1965. Although Palm and Black (1971) suggest it may be related to COP, there is no real evidence that this is the case.

Catalog Number: 60997

Background: inbred

Database: Rat Genome Database (RGD)

Database Abbreviation: RGD

Availability: Unknown

Alternate IDs: 60997

Organism Name: DA

Record Creation Time: 20230509T191926+0000

Record Last Update: 20260725T194227+0000

Ratings and Alerts

No rating or validation information has been found for DA.

No alerts have been found for DA.
