**Description:** Service that identifies and evaluates the most important articles in biology and medical research publications. The selection process comprises a peer-nominated global "Faculty" of the world's leading scientists and clinicians who rate the best of the articles they read and explain their importance. Faculty Members and their evaluations are organized into over 40 Faculties (subjects), which are further subdivided into over 300 Sections. On average, 1500 new evaluations are published each month; this corresponds to approximately the top 2% of all published articles in the biological and medical sciences. F1000 is a subscription service paid for by academic and corporate institutions. Users at subscribing institutions automatically receive full access to the F1000 service when using internet facilities provided by their institution.
