Target Antigen: MMP24 antibody

Host Organism: rabbit

Clonality: polyclonal

Comments: Discontinued; manufacturer recommendations: IgG; IgG ELISA; Immunohistochemistry; Immunoprecipitation; Immunofluorescence; Flow Cytometry; Western Blot; ELISA: Use at an assay dependent dilution. FACS: Use at an assay dependent dilution. IHC: Use at an assay dependent dilution. IP: Use at an assay dependent dilution. WB: Use at a dilution of 1/2000. This dilution is determined using a concentrated cell culture media from a stimulated cell line, an alkaline phosphatase conjugated secondary antibody and BCIP/NBT as the substrate. Higher antibody concentrations may be necessary for non-human samples. The antibody identifies a band at 65 kD (zymogen) and also the activation and breakdown products. GTX11648 also recognizes non-reduced (native) MMP24. Note: Since cell types differ greatly in the quantity of MMP24 produced, the conditioned media ma
