pBAD Strep TEV LIC cloning vector (8R)

RRID:Addgene_37506

Type: Plasmid

Proper Citation

RRID:Addgene_37506

Plasmid Information

URL: <http://www.addgene.org/37506>

Proper Citation: RRID:Addgene_37506

Bacterial Resistance: Ampicillin

Vector Backbone Description: Backbone Size:5693; Vector Backbone:pBAD; Vector Types:Bacterial Expression; Bacterial Resistance:Ampicillin

Comments: This plasmid is an empty vector. Your gene can be inserted via LIC cloning. 8-series vectors are induced with L-arabinose for tighter control of expression. Glucose can be added to the medium to further inhibit leaky expression. The plasmid can be expressed in any E. coli line that lacks proteases. 8R adds a TEV-cleavable strep tag to the N-terminus of your protein. To clone into this vector, add LIC v1 tags to the 5' end of your PCR primers. Forward - 5'TACTTCCAATCCAATGCA3' Reverse - 5'TTATCCACTTCCAATGTTATTA3' Linearize the plasmid with SspI and gel purify. When digesting the DNA with T4 polymerase, use dCTP for insert and dGTP for vector. More information on this vector can be found through <http://qb3.berkeley.edu/qb3/macrolab/> .

Plasmid Name: pBAD Strep TEV LIC cloning vector (8R)

Record Creation Time: 20220422T222158+0000

Record Last Update: 20260829T080440+0000

Ratings and Alerts

No rating or validation information has been found for pBAD Strep TEV LIC cloning vector (8R).

No alerts have been found for pBAD Strep TEV LIC cloning vector (8R).
