pJK657

RRID:Addgene_71647

Type: Plasmid

Proper Citation

RRID:Addgene_71647

Plasmid Information

URL: <http://www.addgene.org/71647>

Proper Citation: RRID:Addgene_71647

Insert Name: phosphoribosylaminoimidazole carboxylase

Organism: Treponema denticola

Bacterial Resistance: Ampicillin

Vector Backbone Description: Backbone Size:3666; Vector Backbone:pET23a; Vector Types:Bacterial Expression; Bacterial Resistance:Ampicillin

Comments: The protein produced is anticipated to have no catalytic activity. This protein is based on the one referenced in NCBI WP_002681904.1, which is incorrectly annotated as a N5-carboxyaminoimidazole ribonucleotide mutase. Functional expression studies show that the active form does not possess this activity and it instead has the characteristic reactivity of a class II PurE or 5-aminoimidazole ribonucleotide (AIR) carboxylase

Plasmid Name: pJK657

Relevant Mutation: changes histidine-40 to alanine, phenylalanine-79 to tryptophan

Record Creation Time: 20220422T222441+0000

Record Last Update: 20260902T050051+0000

Ratings and Alerts

No rating or validation information has been found for pJK657.
