Description: A chemistry contract research organization (CRO) that offers synthetic and analytical chemistry services performed by a team of predominately PhD. level chemists with pharma backgrounds. * Synthesis Services: Their main areas of expertise are in Medicinal Chemistry (SAR exploration, parallel chemistry, patent examples), synthesis of reference compounds, metabolites and labeled compounds (including radio-labeled compounds). OT Chemistry also offers drug Development Support chemistry expertise in route scouting and process optimization. * Analytical and Pre-clinical Services: They provide a wide range of analytical and pre-clinical services such as bioanalysis (non-GLP and GLP utilizing UPLC MS/MS), MTS solubility, protein binding studies, stability and degradation studies, metabolic profiling, formulation development, autoradiography and mass balance studies.

Abbreviations: OTC

Synonyms: OnTarget Chemistry AB, OT Chemistry

Resource Type: commercial organization, service resource

Keywords: contract research organization, chemistry, pharmaceutical, medicinal chemistry, organic synthesis, analytical chemistry, bioanalysis, glp bioanalysis, preclinical, autoradiography, bioanalytical, drug discovery, medicine, synthetic, analytical
