Proper Citation: Sunnybrook Tumour Bank (RRID:SCR_004138)

Description: Sunnybrook Research Institute's tumour bank provides a mechanism for the optimal collection, storage and distribution of human tissue for investigative purposes. We collect both freshly frozen and formalin-fixed paraffin-embedded tumour and normal samples, retrospectively and prospectively (informed consent and confidential consent is obtained from patients before sample collection). We offer the 1. Distribution of tissue and data to interested investigators after approval from the institutional research ethics board and 2. Collaboration with various research investigators. Our mandate is to design, implement and manage the structures and processes to ensure the timely provision of tissue samples and associated data. We are currently building bank on four disease sites: breast, prostate, colorectal, gynecological. We are also creating and maintaining a database with a tissue tracking and inventory system, using TissueMetrix software.

Abbreviations: Sunnybrook Tumour Bank

Synonyms: Sunnybrook Research Institute Tumor bank, Sunnybrook Research Institute Tumour bank

Resource Type: tissue bank, material resource, biomaterial supply resource

Related Condition: Tumor

Resource Name: Sunnybrook Tumour Bank

Resource ID: SCR_004138

Alternate IDs: nlx_16022
