Proper Citation: Autism Genetic Resource Exchange (RRID:SCR_004403)

Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on January 11, 2023. A private repository of clinical and genetic information on families with autism. Genetic and clinical data are obtained from families that have more than one family member diagnosed with an Autism Spectrum Disorder. The biological samples, along with the accompanying clinical data, are made available to AGRE-approved researchers worldwide. As they become available, additional family pedigrees will be posted in the online catalog. Cell lines have been established for the majority of families in this collection and serum/plasma is available on a subset of the subjects until stocks are depleted. The diagnosis of autism has been made using the standard Autism Diagnostic Interview-Revised (ADI-R) algorithm and the Autism Diagnostic Observation Scale (ADOS-G). Detailed birth and medical histories (including basic dysmorphology assessments) on children as well as family and medical information for parents and unaffected siblings, are available for nearly all families. DNA, cell lines, serum, plasma and clinical information are made available to AGRE-approved researchers for analysis.

Abbreviations: AGRE

Resource Type: biomaterial supply resource, material resource

Defining Citation: [PMID:20955925](#)

Keywords: family registry, gene bank, genetics, autism diagnostic, interview, autism diagnostic observational scale, autism spectrum disorder, birth, clinical data, genome scan, genotypic data, medical history, pedigree, phenotypic data, dna, cell line, serum, plasma, biorepository, biospecimen, pervasive development disorder

Related Condition: Autism, Autism spectrum disorder, Pervasive Development Disorder

Funding: NIMH 1U24MH081810

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: Autism Genetic Resource Exchange

Resource ID: SCR_004403

Alternate IDs: nif-0000-00226

Record Creation Time: 20220129T080224+0000

Record Last Update: 20260808T190445+0000

Ratings and Alerts

No rating or validation information has been found for Autism Genetic Resource Exchange.

No alerts have been found for Autism Genetic Resource Exchange.
