Proper Citation: National Temporal Bone Pathology Resource Registry (RRID:SCR_004705)

Description: A non-profit organization that promotes research on hearing and balance disorders. The Registry database allows researchers to perform simple searches to locate specimens of interest. The results show the laboratories where specimens that match the query are located. Investigators should contact the individual laboratories for studying the specimens or for access to the sections. The Registry also serves the public and the scientific community through the dissemination of public information on temporal bone donation and research, enrollment of temporal bone donors, publication of The Registry, a newsletter for researchers, conservation of existing human temporal bone collections, and professional educational activities for physicians and scientists.
