Description: Comprehensive set of protein domain families automatically generated from UniProt Knowledge Database. Automated clustering of homologous domains generated from global comparison of all available protein sequences., THIS RESOURCE IS NO LONGER IN SERVICE. Documented on September 16,2025.

Abbreviations: ProDom

Resource Type: data or information resource, production service resource, data analysis service, database, analysis service resource, service resource

Defining Citation: [PMID:15608179](#), [PMID:12230033](#)

Keywords: set, protein, domain, family, automatically, generated, UniProt, database, homologous, sequence, compare, FASEB list

Funding: 'Programme de Bio-Informatique InterOrganismes ;
