Proper Citation: Postdoctoral Program for Veterinarians (RRID:SCR_008296)

Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented on January 27,2022.This program helps address the shortage of veterinarians who are trained for independent research. It supports veterinarians during the first 3 years of their PhD training. Trainees can participate in any graduate program involved in biomedical research at Stanford University: Biochemistry, Biological Sciences, Biophysics, Cancer Biology, Developmental Biology, Genetics, Immunology, Microbiology & Immunology, Molecular & Cellular Physiology, Molecular Pharmacology, Neurosciences, Structural Biology, Bioengineering, and Biomedical Informatics (graduate programs in biomedical research). All share common features: :1. Year 1 focuses on a limited group of courses and laboratory rotations. :2. Subsequent years focus on developing critical thinking via seminars and journal clubs and on independent research. :3. Annual retreats to present and learn about ongoing research in the graduate program. :4. Emphasis on mastering communications skills essential for success in science: oral presentation, writing manuscripts and grant proposals. :5. Developing an appreciation of the role of scientists in the context of society with emphasis on ethical and professional responsibility. Sponsors: It is funded by a T32 training grant from the NIH.
