Proper Citation: HMS Systems Biology Flow Cytometry Facility (RRID:SCR_012696)

Description: Core facility that provides the following services: Sorting and analysis services. The facility houses two state-of-the-art BD analyzers with high-throughput capability, a Stratadigm benchtop analyzer, a high-speed BD cell sorter, and both Mac and PC workstations for data analysis. Sorting services are offered through the facility, as well as instrument and software training.
